**Job Description**

**Why This Isn't Just Another Internship**

At Vivnovation, we're shaping the future of healthcare by combining clinical intelligence, human empathy, and AI-powered technology.

This program gives you the opportunity to work at the intersection of care, tech, and innovation, supporting global clients and real-time healthcare workflows.

**This is your chance to:**

- Build global exposure in the US healthcare ecosystem
- Solve complex problems using AI + Human-Centered Design
- Get mentored by industry experts & contribute to real outcomes
- Kickstart your leadership journey with hands-on strategy and execution
- Strategic Work You'll Be Doing

**You'll contribute to tech-enabled patient-centric solutions across domains like:**

**EHR & Chart Auditing**

Leverage AI-assisted tools to manage electronic health records, review clinical documentation, and ensure compliance in real time.

**ICD/CPT Coding & Billing**

Apply automated and manual coding workflows to optimize revenue cycles, insurance processes, and improve documentation accuracy.

**Care Coordination (CPO, CCM, TCM)**

Participate in AI-enabled coordination of chronic and transitional care workflows, improving health outcomes and efficiency.

**Remote Monitoring Operations (RPM)**

Enable real-time, data-driven decisions with intelligent alerts and clinical dashboards for proactive care.

**Home Health & Ancillary Services**

Power seamless coordination with DME, Labs, Pharmacies, and HHAs using integrated systems and human-led process design.

**US Client Interaction**

Collaborate directly with physicians, nursing system, Healthcare Agencies, and care coordinators in the US healthcare system—handling real-time workflows and transforming communication through empathy and tech.

**We're Looking For:**

- Bold thinkers who can connect care with code
- Fluent communicators with strong US cultural awareness
- Expressive, camera-friendly, and team-oriented
- Curious about AI and how it augments human care
- Passionate about solving real-world healthcare challenges
- Clinical minds with ambition to lead beyond bedside care

**What You'll Gain**

- Deep training in US healthcare systems & AI tech
- Real-world portfolio with client-impact stories
- Lifetime opportunity to contribute to a billion-dollar healthcare vision
